

Adding Three Numbers

When you add 3 numbers, look for facts you know.
Then add the other number.

$\begin{array}{r} \textcircled{6} \\ \textcircled{4} \\ + 3 \\ \hline 13 \end{array}$	$6 + 4 = 10$ $10 + 3 = 13$	<div style="border: 1px solid black; border-radius: 50%; padding: 10px; width: fit-content; margin: 0 auto;"> The numbers are in a different order. </div>	$\begin{array}{r} 4 \\ \textcircled{3} \\ \textcircled{6} \\ + \\ \hline 13 \end{array}$	$3 + 6 = 9$ $9 + 4 = 13$
<div style="border: 1px solid black; border-radius: 50%; padding: 10px; width: fit-content; margin: 0 auto;"> The sum is the same. </div>				

Find each sum. Add the circled numbers first.
Then add the other number.

<p>1.</p> $\begin{array}{r} \textcircled{5} \\ 2 \\ + \textcircled{5} \\ \hline 12 \end{array}$ $5 + 5 = 10$ $10 + 2 = 12$	$\begin{array}{r} 5 \\ \textcircled{2} \\ + \textcircled{5} \\ \hline 12 \end{array}$ $2 + 5 = 7$ $7 + 5 = 12$
---	---

<p>2.</p> $\begin{array}{r} \textcircled{3} \\ \textcircled{6} \\ + 4 \\ \hline \end{array}$ $3 + 6 = \underline{\quad}$ $\underline{\quad} + 4 = \underline{\quad}$	$\begin{array}{r} 3 \\ \textcircled{6} \\ + \textcircled{4} \\ \hline \end{array}$ $6 + 4 = \underline{\quad}$ $\underline{\quad} + 3 = \underline{\quad}$
---	---

<p>3.</p> $\begin{array}{r} \textcircled{9} \\ \textcircled{4} \\ + 7 \\ \hline \end{array}$ $9 + 4 = \underline{\quad}$ $\underline{\quad} + 7 = \underline{\quad}$	$\begin{array}{r} 9 \\ \textcircled{4} \\ + \textcircled{7} \\ \hline \end{array}$ $4 + 7 = \underline{\quad}$ $\underline{\quad} + 9 = \underline{\quad}$
---	---
